Sorry folks I really tried to update the website today but I am going to have to wait for Jamie to help me.
If you email me at

I can send you the PDF file (which I couldn't convert). Then you can read page 14. A comment which
has embedded itself on my brain for nearly 15 years!!! 🐼

A retrospective survey... or try the last line on page 15 Oh and page 32 last paragraph....

I 🐼 Bristol Myers to add that in 1996/7 but then they paid for this report 🐼

This was the catalyst for producing theAword but I had to wait until I got a Doc.

Now you have her and I have kept quiet ever since but not over this. I had to listen to too many people
on the helpline

I cannot blog, twitter or favebook things but if you don't mind the keyboard mistakes watch this space for
Kim's story.....
