

## MITOQ UPDATE

Posted by helen - 20 Sep 2015 11:44

---

Hi All

Just an update on my developments with MitoQ. I have been taking it for a year now and have slowly regained sensation over most of my body. It has definitely helped with bowel and bladder, as they have shown improvements with pain and function.

Sadly, no improvement in muscle cramps, so still have only about 1 good day in 7, but that's an improvement on 1 day in 11 !!!!

I'm amazed at how much sensation I had lost, you just don't realize until it starts to come back.

Best wishes to all, love Helen

PS spoke to someone at Reneuron but still no personal response!

=====

Rolex, we believe it is secure to express, includes a really unique method of their own [replica watches](#) . They've created a distinct segment away with regard to on their own using their

[replica watches sale](#)

, providing neat German born styles along with greater than a splash of the &quot;island-time&quot; attitude. That isn't to express how the

[fake rolex sale](#)

aren't precise, since they're, provided the actual Switzerland actions within. Absolutely no, rather, using the

[fake watches](#)

15-minute increments becoming because near as possible dependably inform time on the conventional single-hand view, you're pressured right into a

[rolex replica sale](#)

more enjoyable look at associated with exactly what period it's. Or maybe that is

[rolex replica sale](#)

simply me personally, the actual &quot;feeling forced&quot; little bit.
