

Ketamine

Posted by kev - 13 Aug 2006 20:19

Hi Doc Sarah, could you give me any info on this drug ketamine? When i attended my local pain clinic the Doc there toyed with the idea of putting me on this but in the end decided against it due to 'weird dreams' side effects. Do you have any knowledge of this drug and is it widely prescribed for nerve pain and pain associated with AA?

Hi Kim

Just read your message about the groups. The msn groups are easy to use your a member of my group are you having problems getting in? If so let me know and I can help you I won't post the link here without your permission but you are still a member of my group and all you need to do is click on the link and then go to the general board to post. I did try to email you as I was concerned about you but it got sent back to me "lol" it would be great to have your company and I would love to help you understand how to use the my msn group so just shout I don't mind at all.

Take care!

Love & hugs Sue x

Hi Sue

Sorry, Sorry, Sorry. I think I am kimnevitt@something but don't know what.

Emails get back to me via

This e-mail address is being protected from spambots. You need JavaScript enabled to view it

or

This e-mail address is being protected from spambots. You need JavaScript enabled to view it

You have permission to do what ever you want to with my emails. It is just I am not very good at this 'posting'. I think there is a button somewhere:whistle:

I have grandchildren who could 'ring roads round me' over this but I don't get it!!🤔

I am coming out of a bad muscle spasm and a keyboard which wanted new batteries!!

My computer upstairs is not talking to me so I can't practice.

So Sad is my life but I keep trying:)

Just about learnt about this forum but it is all going to change at the end of July with a brand new update! Need some more training. Help Jamie!!

Bye for now

Kim
