

Litigation?

Hi Doc, I just wondered if you have ever heard of an A sufferer suing the surgeon after contracting A as a result of surgery? It's not what i intend to do - well probably not - but there are aspects of my surgery/care that could have been handled differently IMO.

Hi Kevin,

I think people have tried, but it is likely to be fraught with difficulties and very prolonged. Actually I have a close friend in the same situation but I haven't been advising he go ahead with litigation. It's not just the financial costs, it's a lot about the stress involved which could make your life a misery.

Not a very fair and equitable situation I know, I'm sorry I can't be more positive!

Kind regards
