

## Pure Oxygen

---

Hi Doc, i was reading on the internet about people buying canisters of pure oxygen who suffer from a number of painful conditions and they claim to get great but temporary relief of their symptoms. It occurred to me that as AA throttles the nerves and reduces their ability to deliver nutrients (blood and oxygen?) to the muscles, organs etc then a 'boost' of pure oxygen may well provide an energy boost or relief from symptoms of AA for a while, even if only the chronic fatigue symptoms.

Whats your opinion on this? And would someone taking a cocktail of medication for AA be ok to try this?

Kevin
