

Time Differance

Posted by DARLA - 01 Jul 2005 03:00

This is so weird...I just posted on the site & realized that I must be running on your time..no wonder my sleeping habits are screwed up. I'm a day ahead of myself on the computer ,as it shows posting as 7/01/05 , and it's still 6/30/05 here in South Dakota.

Just a little bit of fun for a change in my life.

Darla 😊
