

spinal stimulator

Posted by rita - 10 Jan 2011 22:45

Hi

I am going to see if I am suitable for a spinal

stimulator and I wonder if anyone has tried one recently and what the results were. I am quite apprehensive as I have read online varying feelings about them. I should be really grateful for your thoughts on this subject.

Thank you

Take care

Rita

Hi Rita

Sorry for the delay. Eyes bad at the moment. This is not like a social networking site, so you might not get any replies but I will copy in to DocSarah for her comments, She will not give advice of course. would be unethical, but her opinion might help.

I cannot comment myself, as I am not medically qualified, but.....
