Firstly, I would like to sincerely thank all those people who have completed questionnaire No 1. DocSarah has been overwhelmed with your responses.

However, she was disturbed by one contribution and asked if I could somehow contact a male No: 53. The short answer is NO. Similarly, another member asked me if I could add on three more answers to her questionnaire. Again the answer is NO. DocSarah gets anonymous responses and I (Kim) get to know how many.

You can also email DocSarah with any concerns for an individual reply through the website at Contact Us.

This second questionnaire is all about pain and your general health and how this affects YOU. The sensations, symptoms and severity can all be recorded.
It is quite a long questionnaire and could take 15-20 minutes to complete, depending on how much detail you want to include. Again, you can always go back to it as many times as you fell you need to.

Remember, there are no right or wrong answers and everything is completely confidential.
